Remember how we started this chapter on graph theory, I gave you several problems and one of them was this problem about the Indian map,
(Refer Slide Time: 00:12)

if you were to color the states of our country, ensuring that no 2 adjacent states have the same color, what are the minimum number of colors that you would require?
(Refer Slide Time: 00:24)

No 2 states : same color

Minimum number of colors?
