

1 Online / Offline content

1. The online content of Spoken Tutorials can be accessed from :
<http://spoken-tutorial.org/tutorial-search/>
2. You can also download the Spoken Tutorials for offline learning from :
<http://spoken-tutorial.org/cdcontent/>
3. From this link download the FOSS categories in the language you wish to learn.
4. The Spoken Tutorial content will be downloaded as a zip file on your machine.
5. Extract the contents of the zip file & access them.

2 The procedure to practise

1. You have been given a set of spoken tutorials and files.
2. You will typically do one tutorial at a time.
3. You may listen to a spoken tutorial and reproduce all the steps shown in the video.
4. If you find it difficult to do the above, you may consider listening to the *whole* tutorial once and then practise during the second hearing.

3 Linux

1. Click on "Select FOSS" or "All FOSS Categories" drop-down and choose "Linux".
2. Click on "Select Language" or "All Languages" drop-down and choose the language (English, Hindi, Marathi ...) in which you wish to learn.
3. Click on "Submit" button.
4. You will see a list of tutorials based on your selection.
5. Start with the first tutorial in the displayed list.

4 First tutorial: Ubuntu Desktop

1. Locate the topic "Ubuntu Desktop" and click on it.
2. To view the tutorial, click on the Play icon which is located in the player.

3. The **Pre-requisite** will be visible below the player (only for Online contents).
4. **Outline, Assignments, Code Files and Slides** are available below the player.
5. Adjust the size of the browser in such a way that you are able to practice in parallel.
6. This tutorial is created on **Ubuntu Linux version 10.10**.
7. You will notice the difference in the interface, in the recent versions of **Ubuntu**.
8. Once the tutorial is complete, choose the next tutorial from the playlist which is located on the right side or below the player.

5 Tutorial 2 & 3 : Synaptic Package Manager & Ubuntu Software Centre

1. Locate the topics "Synaptic Package Manager" and "Ubuntu Software Centre" from the list.
2. Both the tutorials will explain how to install various software on "Ubuntu Linux OS".
3. In the older versions of Ubuntu, by default "Synaptic Package Manager" is pre-installed.
4. From Ubuntu version 12:04, by default "Synaptic Package Manager" is not pre-installed.
5. But one can install "Synaptic Package Manager" via "Ubuntu Software Centre" or **Terminal**.
6. It is recommended to practice both the tutorials.
7. Once the tutorial is complete, choose the next tutorial from the playlist which is located on the right side or below the player.

6 Instructions to practise the remaining tutorials :

1. The remaining tutorials are explained using the **Linux Terminal**.
2. The commands shown, will work on all versions of Ubuntu.

3. To open the "Terminal", press the "CTRL, Alt and T" keys simultaneously on your keyboard.
4. Follow all the instructions given in the individual tutorials and reproduce all the commands as shown.
5. Play-pause-practise the whole tutorial.
6. Attempt the **Assignments** as instructed in the individual tutorials.
7. Once the tutorial is complete, choose the next tutorial from the playlist which is located on the right side or below the player.
8. Follow all the above instructions, till you complete all the tutorials in the series.
